BENEO Announces Price Increase for its Functional Fibres

Leading functional ingredients manufacturer, BENEEO, has announced a global price increase of 5% on average on its functional fibres, inulin and oligofructose, for food and feed applications.

The change is set to be implemented from 1st January 2020. Due to rising operational costs and a price erosion since 2011, a price correction is needed to ensure BENEEO remains a reliable and credible industry partner.

Derived from chicory root, inulin and oligofructose, are two of the very few clinically proven plant-based prebiotic fibres. A comprehensive body of high quality scientific studies (in excess of 150) confirms the health benefits of BENEEO's chicory root fibres.

For further information on BENEEO and its ingredients, please visit: www.beneo.com and www.beneonews.com or follow BENEEO on Twitter: @_BENEEO or LinkedIn: www.linkedin.com/company/beneo

BENEEO offers functional ingredients derived from chicory roots, beet sugar, rice and wheat. BENEEO is the ideal partner to help improve a product in its nutritional and technological characteristics. Key nutritional benefits are 'less fat', 'less sugar', 'less calories', 'added fibre', 'gluten-free' and dairy alternatives as well as energy management, digestive, bone and dental health. Key technological benefits focus on taste and texture improvements. Through a unique chain of expertise, including the BENEEO-Institute that provides decisive insights into nutrition science and legislation, and the BENEEO-Technology Center that consults in application technology, BENEEO actively supports customers in the development of more balanced and healthy food products.

BENEEO is a division of the Südzucker Group, employs 1000 people and has production units in Belgium, Chile, Germany and Italy.
